Trostle's book is a delightful blend of history, biography, and literary analysis. She delves into the lives and works of such luminaries as Ernest Hemingway, Tennessee Williams, and Elizabeth Bishop, exploring how their time spent in the Keys shaped their writing and worldview. Trostle also introduces readers to lesser-known writers, such as Zora Neale Hurston and Langston Hughes, who found inspiration in the Keys' vibrant African American community.

Conjuring Key West and the Florida Keys is more than just a literary travelogue. It is a celebration of the Keys' unique culture and heritage. Trostle weaves together stories of the early settlers, the fishing industry, and the bohemian lifestyle that has long flourished in the Keys. She also explores the environmental challenges facing the Keys, and the efforts being made to preserve their natural beauty.

Trostle's writing is lyrical and evocative, capturing the essence of the Keys in all its beauty and complexity. She writes about the "turquoise waters and sugar-white sands" that have drawn visitors to the Keys for centuries, but she also delves into the darker side of the Keys' history, including the slave trade and the devastating hurricanes that have struck the islands.

Conjuring Key West and the Florida Keys is a must-read for anyone who loves literature, history, or the Florida Keys. It is a book that will transport you to another time and place, and leave you with a deep appreciation for the unique beauty and culture of this special place.
